

CATALYST

BY WINCHESTER COLLEGE

SUCCESS BEYOND EXAMS

CATALYST teaches students to communicate with precision, navigate new challenges, and work brilliantly in teams – so they're prepared for whatever comes next.

“

How is the world evolving? What skills are needed for the workplace? CATALYST gave him the wings to take his education to the next level.

- SONYA (PARENT)

Life requires more than good grades. That's why we focus on teaching students to...

Solve problems

Ask the right questions, think logically, and find solutions to unfamiliar and complex problems.

Communicate

Articulate your ideas to various stakeholders — including people who disagree with you.

Collaborate

Discover what it means to cooperate and get the best out of your teammates.

KEY DETAILS:

- Ages 10-13 or 14-17
- 1-2 weeks during the summer holidays
- Rigorous academic achievement
- Online in our immersive virtual campus
- Financial assistance available
- Personalised feedback to keep growing

Our curriculum introduces students to interdisciplinary topics like AI, ethics, culture, and the economy, before challenging them to apply their skills to a problem they care about via a Capstone Project.

“

The concept is truly groundbreaking. The programme has delivered in bucket loads. Look at the content. Look at the style of teaching. Look at the calibre of the people to that blend of topics and expertise. It's a unique opportunity.

- MIKE (PARENT)
